*AHCCCS anticipates issuing a Moral and Religious Attestation request to potential bidders to ascertain moral and religious objections, if any, to any services covered under the ALTCS contract. If moral and religious objections are identified, AHCCCS anticipates issuing a separate RFP to solicit an entity to deliver these services to members enrolled with a successful bidder that elects not to provide these services. AHCCCS may expand the scope of services in the Moral and Religious Objection contract, in the future, to include members of any Acute Care Contractor who attests to moral and religious objections to services in that contract. Such feedback from Acute Care Contractors will be solicited by AHCCCS outside this RFP.
